

**TRUE
COLOR**

TEST how the high CRI (+90) of the **Q1** TRUE
COLOR brings out the true colors.

Turn off the light and test with the **Q1***mini* and **Q1** TRUE
COLOR and compare the color rendering.

Q1mini

Miniature in size but surprisingly powerful. It is equipped with our Hyperfocus system and combined with the latest LED Power-Chip technology.

Q1

A pure classic penlight in actual pen size. Perfect for all types of inspection jobs with its sleek dimensions and adjustable light beam, from wide flood to a narrow spot. Casing and switch in solid aluminum for maximum durability.

Q1 TRUE COLOR

Q1 True Color have all the features that you know from the Q1, but with a color optimized LED. With a CRI level of +90 the Q1 True Color deliver astonishingly clear and accurate colors, perfect for the electrician, inspector, or technician.

Q1r

The Suprabeam Q1r is equipped with a powerful Li-Po battery, internal USB-C charging, electronic switch, and a super efficient LED. The most Powerful penlight on the market with 550 lumen, without compromising on size.
