

## Technical data

Dimensions:	Length 155mm; Ø 46mm
Weight:	307g (incl. batteries)
Casing:	Anodized, aircraft grade aluminum
LED-Type (Output):	1 CREE Led w/Boost 800 lm , 400 lm in High, 170 lm in low or STROBE (10Hz) > 700 lm (all data +/-15%)
Beam/Distance	Variable spot/floodlight 0-300m
Battery lighting time:	< 9 hours
Water resistant:	Splash water proof IPX4
Battery:	Li-ion 26650.

We provide 5 years full warranty, which means that either we or our dealers will exchange any defective part of the lamp or the complete lamp within the warranty period. Warranty is invalid if it is clearly visible that damage is caused by abuse or mistreatment not following procedures of proper care and maintenance.  
Batteries are not part of the warranty.

Suprabeam Warranty:

Thank you for purchasing this Suprabeam Q7xr. A tactical torch with optimised size, weight and lighting efficiency. The combination of rechargeable Li-ion batteries, power LED chip and thermal management guarantees extreme powered light output. Raise your sense of security with the Suprabeam Q7xr, focused on proficiency.

LAMP MODEL

**Q7xr**

Manual

**Changing torch light modes**

The Suprabeam Q7xr can deliver four different lighting modes:

1. BOOST mode, 800 lumens  
(The microprocessor controller automatically reduces the output gradually to 400 lumens in the 3-5 minutes time period to maintain thermal protection)
2. HIGH mode with continuous output of 400 lumens
3. REDUCED mode with continuous output of 170 lumens
4. STROBE (10Hz) mode for self-defense or disorientation (> 700 lm peak output)

To switch between these modes press or touch the switch repeatedly.
